Intevi Digital Booking

## IDB Product Brochure

---

The power to transform...

# DIGITAL ROOM BOOKING

## 7" and 11.6" Room Display

The Intevi Room Booking Unit is a professional system that puts you in control of your room booking reservations.

You can manage your room booking via the email calendar system of the touch-screens outside of each meeting room, presenting customized information including availability, upcoming events and the organizer.

The Intevi Room Booking Unit comes in a 7 inch or 11.6 inch model.

# ROOM DISPLAY CENTRE

## Software Features

### Syncs with existing systems

Syncs with MS Exchange and Google Apps, giving you the flexibility to reserve rooms from any location and device.

### Central Administration

Manage all devices from one central location via the secure, scalable web-based admin console.

### Simple Design

Elegant touch screen door sign. Can run from a single cable with no further hardware needed other than the main unit.

### Stop the Room Thieves

Users can lock their on-screen reservations by entering a one-time PIN code (OTP), which can only be edited or removed by using the OTP or admin password.

### Interactive Timeline

The Interactive timeline blends in with the home screen and provides a superb overview of meeting room availability within a close proximity in time.

### Find and Book Free Rooms

You can search for and book any vacant rooms from any of the Room Booking Displays regardless of which room they are assigned to.

### Analytics

You can receive room analytics and reporting functions that can help you with room KPIs in order for you to use your rooms more effectively.

### Add a Company Profile

You can customise the background image and replace the default logo with your company logo in order to maintain brand consistency.

### Bottlenecks Visualization

Heat maps enable you to quickly identify when meetings are taking place, analyze peak hours and help you visualize patterns over time.

### Meeting Distribution

Identify trends and get historical data on the number of meetings, average meeting duration, no-shows and more.

### Room KPIs and Occupancy

See never before available occupancy rates for the entire organization, breakdown KPIs for each individual room, calculate cost per meeting and put a figure on unused office space.

## ROOM FINDER ADD-ON

A professional, cost-effective and modern wayfinder solution, which is ideal for offices with multiple meeting rooms. It displays easy to read meeting room information, as well as directions for visitors, for use screens in reception areas, lobbies and other office space in order to supplement your IDB solution.

- ✔ Wayfinder solution for meeting rooms
- ✔ Quick and easy setup and implementation.
- ✔ Cheaper than comparable alternatives

## MINIMAL CONFIGURATION

Unlike many other alternative on the market, the Room Finder add-on requires almost no additional configuration. Once your chosen version of the Room Display software is installed, adding Room Finder is as simple as flipping a switch to tell the system what room you want to be displayed in what part of the office.

### Today's Meetings
